How to Bake your P.I.E. for Professional Growth and Success

What is P.I.E. and why is it important? Learn about mastering your performance, guarding your image and the importance of obtaining the right exposure to the right people to get the success you want. In short, P.I.E. is about developing your character. Join us for an highly informative presentation by our highly regarded speaker, Mike Francis from Teva Pharmaceuticals.

Mike Francis is senior information governance professional with over 30 years of diversified experience in the development Information Governance Programs in regulated and non-regulated industries. Mike currently serves as Teva Pharmaceutical's Director of Global Records & Information Management. In this capacity Mike is responsible for leading the development and enhancement of Teva Pharmaceuticals' information governance capabilities globally.

Prior to joining Teva, Mike held various leadership positions in several organizations and industries. Most recently, as a Senior Manager with Johnson & Johnson, supporting the Worldwide Records & Information Management function for company enterprise-wide. This position led to Mike being appointed to position of Chief Records Officer and Head of IT Quality & Compliance with the U.S. Food and Drug Administration. Mike has a strong passion for people development and thought leadership. Mike has been an active member of ARMA International since 1985.
