Lunch is provided if attending at DoubleTree

location at 11:00-12:00

Security is Everyone's Job! – Cybersecurity Issues and Their Impact on Your Organization's Personnel

As the custodians of confidential, sensitive, protected and personal information, businesses are at great risk of being targeted by cyberattacks. Protecting this information is not a job to be relegated to others; it is everyone's job! We all have a part to play - personally and professionally. Your organization is a target, and so are you. This session is designed to provide an overview of common threats and their impact on your organization, how to spot a scam, why you are being targeted, how cybersecurity issues correlate with ethical obligations, and security vulnerabilities you should be aware of.

Guest Speaker: Kenny Leckie

Kenny Leckie, Senior Technology and Change Management Consultant at Traveling Coaches, provides thought leadership and consulting in the areas of security awareness, change management, user adoption, adult learning, employee engagement, professional development, and business strategy. He is a Prosci Certified Change Practitioner and a Certified Technical Trainer and has earned the trust of clients across the US, Canada, the UK and Australia. Kenny's approach brings immediate value to clients as they navigate the ever-changing landscape of security and technology issues. He is an author and speaker and was named the International Legal Technology Association's 2018 Innovative Consultant of the Year. Contact Kenny at kleckie@travelingcoaches.com.

We encourage you to invite others to join us.
